Residents Reminded to Call the City to Report Failed Garbage Pick Up
City Officials Working to Resolve Problems and Improve Services

Pascagoula, MS - The City of Pascagoula continues to deal with service issues stemming from its garbage, recycling and debris contract with Waste Pro, Inc. There have been multiple recent reports of trash, recycling and/or debris not being picked up on scheduled days.

The City of Pascagoula apologizes to our residents and business owners who have had to deal with the service failures of this contractor. We are working diligently to remedy the situation.

We continue to gather feedback from Pascagoula customers about garbage issues, and ask that anyone experiencing missed garbage/recycling or debris pick up **call City Engineering at (228) 372-6835 and leave a message with the date and the address where scheduled service was missed.**

Proposals by service providers were submitted in response to a request for proposals authorized by the Pascagoula City Council. The proposals were received on May 1 and are currently being evaluated.
