Annual Fire Inspections Underway for Area Businesses

The City of Pascagoula FIRE DEPARTMENT is continuing its annual inspections of the fire equipment in area businesses, as does each summer.

Inspections include a review of fire suppression and related equipment. These visits are not pre-scheduled, and business owners and their on-site management are required to comply with all inspections.

“We do this every year, and every responsible business owner expects our visit and prepares for it by making sure their equipment is up to code and employees are properly trained,” stresses Fire Chief Donnie Carlson.

Fire Chief Carlson reminds business owners: “Our inspection is designed to assist businesses and make sure they are in compliance, for the safety of everyone. If any business owner is concerned that their equipment or employee training may not comply fully with code specifications, they can call us in advance of the inspection and we will advise them on ways to become compliant,” he added. The number is:
