

HIGHWAY 90 LIGHTING FUNDS

Highway 90 is currently undergoing construction to make necessary safety improvements that adhere to MDOT Guidelines. At the April 7th regular city council meeting the need for lighting on Highway 90 was discussed. There are limited funding options to provide lighting installation on Highway 90, but one potential option for funding is submitting a project solicitation to the Gulf Regional Planning Commission. The estimated project solicitation period will be during Summer 2020 and projects will be selected in early Fall 2020.
