RE: General Planning Services

Dear Mr. Silverman,

As a follow-up to our recent discussion related to general planning services, please consider this proposed letter of agreement to assist the City of Pascagoula in an on-call capacity. Anticipated services may include, but are not limited to the following:

1. Review, drafting and/or interpretation of municipal codes, plans and ordinances
2. Review of development applications by private developers to the City of Pascagoula for compliance with city codes and ordinances and design integrity
3. Any requests for services that you may have that are considered beyond the scope of any existing agreements

The services are proposed to be carried out as requested by the City of Pascagoula at an hourly rate of \$170. Any services conducted under this agreement shall be preauthorized by the City of Pascagoula. Likewise, any associated service-related travel, if required, shall be preauthorized and reimbursable according to limits established by the City of Pascagoula. Either party may cancel the agreement at any time without cause.

Orion Planning + Design very much appreciates the opportunity to serv the City of Pascagoula.

Sincerely,

Robert L. Barber, FAICP, Partner

c. Michael Moore, City Attorney
